

How much does a rooftop PV system cost in Germany?

From pv magazine Germany The average system price for rooftop PV systems in German single-family homes with and without battery storage rose by around 10% to EUR1,557 (\$1,711)/kW in the second quarter of 2023, in comparison with the first quarter of the year. The prices are 21.9% higher than the second quarter of 2022 when they stood at EUR1,277/kW.

What is the German solar battery storage price monitoring?

The German Solar Battery Storage Price Monitoring summarizes price data of the most important battery storage market segments. To that end, EuPD Research interviews 80 solar installation companies and summarizes developments in a price index. In addition, the following data is gathered in the German Solar Battery Storage Price Monitoring:

How much does a solar system cost?

In a survey of 100 installers, EUPD Research found that prices for such systems range from EUR18,500 to EUR45,500. The values vary so largely because they are calculated by adding the minimum and maximum values of the storage and the solar systems for size classes below and above 10 kW.
