

2G Energy aligns Group structure for further international growth. Parent company Group structure now being transferred to an operational holding structure; The former 2G Energietechnik GmbH will concentrate on sales, project management and service in Germany; Production and procurement will be transferred to 2G Heek GmbH, which is yet to be ...

The most common 2G technology was the time-division multiple access (TDMA)-based GSM standard, used in most of the world outside Japan. [citation needed] In North America, Digital AMPS (IS-54 and IS-136) and cdmaOne (IS-95) were dominant, but GSM was also used.[2] [citation needed] In Japan the ubiquitous system was Personal Digital Cellular (PDC), though ...
