

Who is Avangrid & necec?

ORANGE, Conn., -- November 3, 2021 -- Today, NECEC Transmission LLC and Avangrid Networks, Inc., subsidiaries of AVANGRID, Inc. [NYSE: AGR] filed a lawsuit in Maine Superior Court challenging the citizens' initiative (Question 1) voted on yesterday.

What is Avangrid's necec project?

The NECEC is a renewable energy project being built by AVANGRID to bring hydropower from Quebec to Maine and other parts of New England. "The Army Corps permit is a significant milestone because it clears the way for construction to begin in the coming weeks," said AVANGRID President, Robert Kump.

Will Avangrid separate necec from Central Maine Power?

AVANGRID also announced today that it has taken steps per state regulatory direction to separate NECEC from Central Maine Power by appointing Tony Marone as chair and Thorn Dickinson as CEO & president of NECEC Transmission LLC, which will own and develop NECEC after receiving regulatory approvals.

Who opposes the necec project?

Opponents of the NECEC project include fossil fuel energy generation owners NextEra, Calpine and Vistra Energy, which combined have contributed over \$24 million to block the project over the last two years according to publicly filed documents, including fully funding the referendum signature campaign.

What is the necec project?

"The NECEC project is one of the most significant projects to be built in Maine's history. The project will expand Maine's tax base and economy and create jobs, all while providing renewable energy to the New England Power Pool without any cost to the people of Maine," said Peter Vigue, Chairman, The Cianbro Companies.

What if the necec was built?

Once built, the NECEC would be New England's largest source of renewable energy, representing a fundamental shift away from fossil fuels while simultaneously lowering energy costs in Maine and New England. The 145-mile transmission line will be built on land owned or controlled by Central Maine Power.
