Altex Energy Ltd. | 765 followers on LinkedIn. Rail terminal and logistics company in Western Canada working with markets across North America and globally | Altex is a rail terminal and logistics company. Working closely with Canadian National Railway, we pioneered the idea of moving Western Canadian produced heavy oil and bitumen to market in railcars without adding ...

Vietnam has a diverse energy fuel resource of various types such as coal, natural gas, petroleum, hydropower, and renewable energy sources such as solar energy, biomass energy, wind energy, etc. Because of its diverse natural ...

Altex is not one of these companies. We are a service delivery company. We focus on the broad picture with a goal of keeping the entire "system" flowing consistently. We take a system approach by working with producers, truckers, rail carriers and even other terminals. We proactively manage your business.

The chart shows that undiluted shipments of bitumen or heavy oil by rail is very competitive with pipelines being 12% to 31% less for rail versus committed pipelines. However, when diluent is added rail becomes uncompetitive. Comparing the diluted versus undiluted costs shows the very large negative impact the "diluent penalty" has on costs regardless of mode of transport.

Customs. If you prefer, we can electronically file to Canada and US customs using Jori International, CN Customs or your preferred customs broker. We file the proforma invoice to ensure that your shipments clear the border without a costly incident.
