

AED Energy Services" recently acquired team brings a 30-year legacy of delivering end-to-end solutions across renewables, liquid petroleum, natural gas, chemical midstream, and utility segments of the energy industry. The group will operate as a stand-alone subsidiary under ARG, upholding its reputation for high-quality services. ARG is ...

Madagascar is among Africa's richest countries in terms of renewable energy potential. Many of the island's regions have more than 2800 hours of annual sunshine, which are some of the highest levels on the continent. The north and south of Madagascar have wind speeds that are highly favourable to the production of electricity.
