

When I check the envoy via the local network URL I can see the batteries are reporting a Status of "OK"; however they continue to report as AC Battery Inactive in Enlighten and they are not charging when there is excess solar. I also tried charging from the grid overnight (between midnight and 4am) but this did not appear to happen. Even the one ...

Go to Settings-Battery then in upper right is a symbol like three slider bars, touch that and you can enable charge battery from grid. Doing so will technically disqualify your battery from the residential energy credit however.

Syensqo, specialized in advanced performance materials and chemical solutions, has announced its latest achievement: winning the 2024 Altair Enlighten Award in the Lightweighting Module category. This accolade was awarded for General Motors' pioneering hybrid battery module structure utilizing a model's polyphthalamide (PPA). This innovative structure stands out for its ...

Hello @Clark_6602, You can view or change the battery settings by clicking on the "Settings" (gear symbol) icon from your Enphase app (Enlighten Manager). The details can be found under the "IQ Battery Details" section. Expand Post. Like Liked Unlike Translate with Google Show Original Show Original Choose a language. Log In to Answer.

I see a new function on the battery charge from grid screen. Mine is set for charge when under 30%..... the charge to 100% during this schedule is not checked. Every night at midnight the batteries start charging and continue until they get to 100%. This function does not appear to be working correctly. By charging at night there is little to charge in the day.

Enlighten is committed to finding new ways of making clean, competitive energy solutions.
