

What is industrial asset management?

Industrial asset management is the strategic approach to overseeing an organization's physical assets throughout their entire lifecycle. It encompasses the routine maintenance of equipment as well as the processes of monitoring, analyzing, and optimizing asset performance.

Why should you use industrial asset management services?

An effective asset management strategy can help you improve asset availability, boost OEE, and reduce your MRO spend on a day-to-day basis. Our Industrial Asset Management services can help you get the most from your operations, proactively address downtime issues, and help manage risks.

What is efficient industrial asset management?

Efficient industrial asset management is the backbone of any successful manufacturing operation. It involves the strategic management of an organization's physical assets to ensure they function optimally, are well-maintained, and contribute to increased productivity and profitability.

What is industrial asset management (IAM)?

Industrial asset management (IAM) is a system used to track and maintain industrial assets such as machines, tools, and equipment. IAM systems are used in the manufacturing sector and other industrial settings to help companies keep track of their assets and plan for their future needs for meeting customer demand.

How can industrial assets generate value?

For industrial assets to generate value for the organization, throughout their life cycle, it is not enough to simply specify, request quotes and purchase that asset. Differently from that, the acquisition and management of an industrial machine is a multi-step process to be done calmly and properly, including:

What is the life cycle of industrial assets?

The life cycle of the asset involves its selection (design and acquisition), operation, maintenance, possible retirement and disposal. For industrial assets to generate value for the organization, throughout their life cycle, it is not enough to simply specify, request quotes and purchase that asset.

Who is ASSET for Industrial & Energy Solutions. ASSET For Industrial & Energy Solutions is a Limited Liability Company established in 2019, organized and subject to the provisions of the laws of the Arab Republic of Egypt.

Radiant's industrial asset tracking solution identifies item location and, optionally, condition. The information is current, can be accessed through a variety of devices, and saves industrial customers tens of millions (or more) annually due to production downtime, productivity loss and fines due to inventory audit failures.

Importance of an asset register for industrial maintenance. In many organizations, it was the Finance department that needed and maintained records of machinery and equipment useful life. This was to calculate depreciation and fixed asset values for the balance sheet. However, effective maintenance also needs a comprehensive record of the ...
