

What is a balancell battery?

The Balancell Residential and Small Business battery is an intelligent and powerful energy storage system designed to deliver clean energy to your residence or small enterprise.

Who is balancell energy?

Electricity, gas, steam and air conditioning supply Balancell Energy is an innovative company focused on sustainable energy solutions. Learn more about their products and services on the Innovation Bridge Portal

Where is balancell headquartered?

Balancell is headquartered in Cape Town, South Africa. What is the size of Balancell? Balancell has 78 total employees. What industry is Balancell in? Balancell's primary industry is Electrical Equipment. Is Balancell a private or public company? Balancell is a Private company. What is the current valuation of Balancell?

What is balancell & how does it work?

How Balancell Seeks To Unleash The Power Of Renewable Stored Energy Within The Global Marketplace. Balancell is a future-focused, innovative technology business, that develops 'smart' batteries designed to manage & protect themselves, and report their use and condition remotely.

What makes balancell a great battery manufacturer?

Balancell has been at the forefront of that change, with our range of lithium ferro phosphate battery solutions designed to reduce costs, boost performance, and help our customers move boldly towards their environmental goals. We are a battery manufacturer focused on the future - preparing for tomorrow's growth and challenges today.

How much money does balancell make?

The current revenue for Balancell is 00000. How much funding has Balancell raised over time? Balancell has raised \$1.5M. Who are Balancell's investors? Kigeni, Neil Kirkpatrick, Andrew MacPherson, and Savant (South Africa) have invested in Balancell.
