

For grid applications we support our customers with our full range of capabilities to implement battery systems from 200 - 500 kWh all over the world. CAS engineers/builds products which requires a combination of "One Stop" competences during the engineering and construction phases, such as: Mechanical, Electrical, Special Climate, ...

The 500 Wh/kg battery platform significantly expands boundaries for customers and is a tailored solution for applications that require maximum discharge times without compromising key features such as aircraft payload and without having to increase vehicle weight. The new batteries demonstrate both high gravimetric energy density (Wh/kg) and ...

Huawei oferă o soluție modulară personalizată cu Luna Smart String, care poate fi adaptată la nevoile tale. Cu capacități de 5 kWh, 10 kWh sau 15 kWh și opțiunea de a o extinde ulterior, bateria Luna poate satisface nevoile și să schimbe. În plus, prin utilizarea optimizatorului opțional, poți obține un sistem puternic și eficient din punct de vedere energetic.

Parce que la Fiat 500 électrique existe aussi dans une version petite batterie de 24 kWh, nous nous devons de l'essayer, elle qui est tant appréciée par la communauté d'électromobilistes.
