The Vertiv(TM) Liebert® PST5 standby UPS family offers guaranteed battery backup and surge protection for computers, gaming consoles, workstations, retail point-of-sale (POS) equipment, wireless networks, surveillance systems and ...

Lithium-Ion UPS battery backup systems are designed to provide twice the life expectancy of traditional VRLA batteries. Through fewer battery replacements, ability to withstand higher temperatures, and quick recharge cycles, these systems are ideal for protecting your critical infrastructure in edge or distributed IT environments.

UPS with Lithium-Ion batteries offer power protection to critical equipment in edge, distributed IT applications and data center. They last 2-3 times longer than those with lead-acid batteries, resulting in fewer battery replacements and lower labor costs. With smaller size and lower weight, lithium-ion batteries for UPS systems save space, improve location flexibility and address ...
