

Energy minister Jean Houssou has commissioned the 25MW Defissol solar PV plant, Benin's first large solar PV project. The project was financed by Agence Française de Développement, the European Union and Sociéte Béninoise d'Energie Electrique.

The cost of electricity from solar power in Benin varies based on the type of system and other factors: Pay-As-You-Go Solar Products: As of September 2016, customers could access pay-as-you-go solar products approximately USD 1.50. This cost is comparable to the average weekly expenditure on kerosene and phone charging.

ARESS, société panafricaine basée au Bénin est spécialisée dans la fourniture, distribution et vente des Kits solaires autonomes, des installations de systèmes d'énergie solaire de qualité pour professionnelles et de l'audit énergétique.

The project will finance the deployment of solar home systems in Benin. The solar home systems are composed of a solar panel, a central unit (including battery storage, an energy management system / charge controller and communication technology) and several appliances and will be sold on a payment plan basis to individual beneficiaries located in Benin under pay-as-you-go ...

The power supply in Benin is insufficient. Local people pay as much as RMB 1.5 for each kilowatt hour of electricity, while their average annual income is only RMB 1,000. 50.9% of the residents cannot afford the electricity. ... However, ...
