

The Ashdam Solar Pay Small Small Scheme is an installment payment plan designed by Ashdam Solar Company Limited in partnership with financial institutions to support Nigerians to get over the frustrations of little or non-availability of electricity supply by switching to Sustainable self-generation of Electricity and to ease the acquisition of solar, inverter or ...

Nigerian Solar companies providing PAYG energy services can reach large urban and rural customer bases, primarily by leveraging digital or text-enabled payment processing and customer service. Pay-as-you-go solar can also serve as a gateway to financial inclusion, a report by the United States Agency for International Development (USAID) said.

The European Investment Bank has agreed to provide a EUR 10 million loan to support the deployment of 107,000 high-quality solar home systems to Benin. This will open up access to clean energy for 643,000 people. The solar home systems include solar panels and battery storage to be sold on Pay-As-You-Go (PAYGO) contracts.

The new Benin cooperation follows the EIB's previous support for ENGIE to deploy off-grid solar power in Uganda. "Our partnership with the European Investment Bank in Benin will provide ultra-affordable pay-as-you-go systems to people in villages across the country, giving access to clean solar energy and financial empowerment," says Huart.

Downloadable (with restrictions)! We analyze pay-as-you-go (PAYG) contracts subscribed by 10,120 consumers living in Benin (Sub-Saharan Africa) to purchase solar kits or panels for lighting and charging services. PAYG are flexible loans that allow fees payment through mobile banking. Most of the PAYG consumers live in well electrified areas (Cotonou, Porto Novo, Abomey ...
