

What is Beyond's hybrid battery cell technology?

Beyond's hybrid battery cell technology is a more cost-effective and sustainable way to supply electric power for renewable energy grids, transportation and offshore energy infrastructure where high power and fast charging is needed.

What is Beyond battery technology?

Beyond is a battery technology company that has developed the next generation eco-friendly and energy efficient batteries. Produced with clean energy and energy-efficient methods, our batteries have the smallest environmental footprint possible.

Is Beyond LIC a good battery?

Beyond's LiC is durable and suitable even for the Nordic low-temperature environment. The LiC's high-capacity silicon anode provides a high specific energy. The use of a wood-derived activated carbon cathode enables the LiC to operate at higher specific power, with greater durability compared to Li-ion batteries.

Beyond | 10,884 followers; LinkedIn. We develop and manufacture eco-friendly and high-capacity battery products for industrial use | Beyond is a leading battery technology company established in 2016 that develops sustainable and high-capacity battery solutions for the future. The company has developed, qualified and certified its own product, based on its proprietary ...

Beyond's international battery adventure. Photo: Fredrik Refvem / Stavanger Aftenblad. Beyond CEO Svein Kvernstuen explains more about the plans for an international battery adventure in Stavanger Aftenblad, June 16: "This is ...

We are pleased to announce the signing of a Memorandum of Understanding (MoU) with Hitachi Energy Norway AS on 22.11.2024. This strategic partnership aims to explore and develop innovative applications for Beyond's advanced battery technology within Hitachi Energy's extensive energy solution offer

Beyond Introduces Revolutionary Li-ion Battery Solutions, setting new standards in sustainability and performance Beyond, a leader in sustainable energy solutions, is proud to announce the launch of our groundbreaking first Norwegian proprietary commercial Li-ion battery technology, designed for inter alia grid stabilization, renewable energy integration, ...

Beyond supplies BePowered battery products that offers excellent power properties with extended cycle life in addition to excellent thermal properties. Beyond has developed eco-friendly and energy efficient batteries that can be fully charged in 12 minutes and recharged more than 10,000 times. This advanced technology aims to reduce the ...

Norwegian based battery technology company Beyonder has recently raised NOK 125 million from investors in support of its ambitious growth plans. With an increasing demand for storage technologies to integrate higher ...

BePowered is Beyonder's next generation of eco-friendly and high-capacity battery cell. These cells offer more than 10K cycles using 5C continuous charge/ discharge with 70% or more remaining capacity. ... With focus on ...

Hangzhou Lin'an Beyonder Power Co.,ltd, focuses on the design, research and development, production and sales of lithium-ion power batteries and related power products. The company is located in Hangzhou of Zhejiang Prov-ince,near to Shanghai. It was established in June 2007 and is a national high-tech enterprise.
