

# Bouvet Island solar panels in and their prices

Unlike many other states, however, Rhode Island does not specify a carve-out for solar panel power. That is, companies do not necessarily have to use solar power at all to make up their 14.5%. Rhode Island could improve its solar status easily by bumping up its total RPS percentage and including some specific legislation about solar energy. Rating

You still need a grid connection, the solar panels don't make enough power to go off grid during the winter. If you make more electricity than you use, you get a credit in your &quot;energy bank&quot; which you can use at a later date (1 credit = 1 KWH). Years ago, they used to pay you for the excess energy but now it's just this credit system.

I'm getting quotes from some solar companies and I've come down to two pretty decent quotes from Sunation and Long Island Solar. The LI Solar is cheaper by about \$30 a month, but some people I speak to are saying to go with the larger company (Sunation) because it's a long term investment (solar & roof warranty, production, etc).

Solar panels cost between EUR5,000 and EUR10,000, depending on their quality and how many panels are installed. The average price is for a typical household is EUR7,500 for a 10 panel installation, this takes the EUR2,100 government grant into consideration.
