

Public safety and security are key priorities in our work. Through the installation of 50,000 solar streetlights, we are lighting up streets, markets, and communities across Burundi. This project not only improves safety but also allows businesses and social activities to continue after dark, boosting economic activity and enhancing the social fabric of communities.

Bujumbura, 29 September 2023 -- In a concerted effort to advance Sustainable Development Goal 7 (SDG-7) coupled with SDG 13 and to accelerate universal access to electricity in Burundi, leading organisations are once again uniting to present the second edition of the Burundi Renewable Energy Access Days (BREAD). This transformative event, taking place from 3 - 5 ...

The Burundi FF is constructed on the cutting-edge electric vehicle platform from Faraday Future, which includes a cutting-edge battery system and electric motor. The car's range of up to 300 miles on a single charge makes it perfect for long-distance travel in rural locations with limited access to charging facilities.

Future Energy Solutions (FES) is paving the way to a brighter, more sustainable future with custom LED lighting with no upfront capital cost. As the leading national Lighting as a Service (LaaS) provider, we're on a mission to make it easy for businesses to make smart energy choices. We have partnered with thousands of companies to capture big financial savings, reduce ...

Burundi Energy Corporation (BEC) is tackling these critical challenges head-on. Through our landmark initiatives--including large-scale solar power plants, solar streetlight installations, and community power hubs--we are committed to delivering clean, reliable, and affordable energy solutions across the country.
