

Are solar panels a good investment in Ireland?

In Ireland, both residential and commercial properties can benefit from various grants and incentives for solar panel installations, making solar energy more affordable and accessible. The Sustainable Energy Authority of Ireland (SEAI) provides significant financial support, offering grants up to EUR2,100 for residential solar PV systems.

Who is a solar PV installation company based in Dublin & Cavan?

We're a solar PV installation company based in Dublin & Cavan, serving residential & commercial customers throughout Ireland. With years of experience & over 2,000+ solar installations throughout Ireland, our team of SEAI certified professionals is committed to delivering efficient and reliable solar PV solutions based on your unique energy needs.

Is the UK & Ireland suitable for solar PV?

The UK & Ireland IS suitable for Solar PV. The panels work on daylight, not direct sunlight, there is ample daylight to generate a healthy amount of electricity. On average a 4kW system could potentially generate EUR600.00*worth of electricity annually. Prices are now more feasible, and we also offer a finance option if preferred.

Who are SEAI certified solar installers?

With years of experience & over 2,000+ solar installations throughout Ireland, our team of SEAI certified professionals is committed to delivering efficient and reliable solar PV solutions based on your unique energy needs. We pride ourselves on our exceptional customer service, ensuring a smooth installation process from start to finish.

Is Go Solar a good company?

Joe Brady. Go Solar has a great team. Very quick clean and good communication from all the team from start to finish. All positive, from start to finish. Good communication with everyone in the office. Lads installed full system in under one day, without any issues. Can't recommend it enough. Thanks Go Solar Team.
