

If you bought an old, outdated solar guide, the technology will be out of date and you will end having to pick out new components to build your solar system anyway. You`ll Be Happy to Know, We`re Charging Much Less... You can order the Simple Solar Design: An Interpretive Guide for Beginners for just. \$19.99 CAD!

For most homes, a 5.0 kW system will be 14 panels and will generate 60 to 80 % of the electricity used. The typical cost to install a system of this size is between \$12,000 and \$15, 000 before the rebate. The \$5,000 rebate for a 5.0 kW system is therefore reducing the cost of your system by at least a third. Not a bad deal!
