When you pick up the sphere, start flying to the left side of the tower (it has the sphere energy dispenser) and boost until you can reach the activator switch. You'll get it, I'm sure! Reply reply

To address some of these concerns, the St. Kitts government introduced reforms, including expanded background checks and enacting stricter escrow-account rules. However, according to the 2020 CBI Index produced by Professional Wealth Management magazine, a publication from the Financial Times, St. Kitts has one of the least corrupt programs.

So im currently on Cephass Downs and theres an energy socket 9 kilometers away from the energy sphere dispenser. I tried for about 40 mins now to get that energy sphere to the socket in time, but no success. I tried everything. Teleport, speed boost device, but no success. It literally seems impossible. Has anyone here been able to succeed?
