

Picea - HPS System by HPS Home Power Solutions GmbH. Energy storage, heating support and ventilation unit, all-in-one. HPS has developed a system in which components such as battery, electrolyzer and fuel cell all work together efficiently.

Über picea und HPS Home Power Solutions AG. HPS ist weltweit führend in der Entwicklung und Produktion von integrierten Energiespeichersystemen auf Basis von grünem Wasserstoff gebildet.

The price of Picea is usually between 60,000 and 90,000 euros depending on the individual dimensioning - this price includes: An electrolyser for the production of hydrogen from solar power, a fuel cell for the supply of electricity in winter, 25 kWh usable battery capacity for short-term storage, at least 300 kWh long-term storage, solar inverter for the direct ...

HPS Home Power Solutions hat mit Picea 2 eine neue Generation seines Ganzjahresspeichers vorgestellt. Der Berliner Hersteller hat die Ausgangsleistung auf 15 Kilowatt verdoppelt, um einem höheren Bedarf, etwa für ein Elektroauto oder eine Wärmepumpe, gerecht zu werden.

Comprising an extensive array of innovations, the forthcoming product generation of picea was introduced by HPS today at its new research and development facility in Berlin-Niederschöneweide. Boasting a 15-kilowatt capacity, picea now delivers double the output power, rendering it capable of satisfying elevated demands, such as those for ...
