

Why should oil & gas customers choose Circor?

The escalating number of environmental regulations and significant power needs in refineries. Customers turn to CIRCOR for fluid-handling solutions that transfer critical fluids without interruption and keep equipment running at peak efficiency. Because failure is not an option in oil & gas.

What industries does Circor serve?

With a history dating back to 1860, CIRCOR serves a wide range of industries including oil and gas, commercial marine, defense and power generation. We also produce well-known global brands like Allweiler, Imo, Houttuin and Warren.

Why should you choose Circor for a pump & valve system?

The stakes are high, the environments are demanding, and the consequences are catastrophic for those tasked with fluid handling in the world's toughest environments. CIRCOR delivers pump & valve systems and custom engineering & design services designed to address the most mission-critical and severe-service applications.

What brands do Circor use?

In fact, CIRCOR's trusted brands - Allweiler's, Imo's, Houttuin(TM), Tapco Enpro, Delta Valve, Tushaco's, RTK's, Schroedahl's, Warren's; and Zenith's; - help move more than 4.5 million barrels of crude every day, with our unique ability to deliver:

Why should you choose Circor terminal station solutions?

Move fluids with speed and precision by having the right people and technology in place. Backed by a team of knowledgeable specialists, CIRCOR terminal station solutions ensure efficiency flows downstream, whether you're charged with loading and unloading fluids or storing, redistributing and consolidating them.

Why should you choose Circor Zenith Pumps?

CIRCOR's Zenith Pumps helps customer roll out a revolutionary new way of making scented plastic bags. Many roles. One purpose. Keeping society safe, productive and moving. When failure is not an option. Turn to the most trusted name in critical fluid handling. Excellence in flow control. Achieving excellence through technology, teamwork and talent.

We believe that a diverse mix of talented people combined with robust processes, appropriate metrics, and individual accountability will deliver extraordinary results and further strengthen our commitment to the shared purpose of Keeping ...

CIRCOR Industrial Pumps deliver an extensive portfolio of pumping and fluid handling technologies,

enabling us to meet the needs of customers in demanding applications around the world. ... providing solutions for a wide range of industries including chemical, energy, water and wastewater, commercial marine, navy, power generation and many ...

Pibiviesse S.r.l. (Circor Energy) About; PIBIVIESSE was established in 1981 by three partners, combining the forgemaster expertise with the experience in valve design, manufacturing and marketing. Their vision of the future was to design and manufacture state-of-the-art valves "designed to perform - built to last" for the most demanding ...

Circor Energy. US-based Circor Energy is one of the leading designers and manufacturers of highly engineered products and sub-systems. The company caters to numerous industries such as oil and gas, industrial, aerospace, defense, power generation, commercial & institutional facilities, and marine industry segments. ...

Houttuin, a CIRCOR brand, developed the original pump design that became the blueprint for today's low-pressure, twin-screw positive displacement rotary pumps. These pumps, initially built in 1929 for the Dutch coal industry, solidified our reputation for manufacturing high-quality, energy-efficient and cost-effective industrial pumps.

HOUSTON--(BUSINESS WIRE)--Nov. 23, 2015-- CIRCOR Energy, a CIRCOR International, Inc. (NYSE: CIR) company, will be exhibiting at the upcoming Power Generation International event, held in Las Vegas, Nevada, December 8 - 10, 2015. POWER-GEN International is the world's largest power generation event focusing on the industry's latest innovations, technical trends ...

CIRCOR is committed to market leadership in the many industries we serve. To this end, we seek to acquire the very best people, engage and challenge them professionally, and continually enhance their talents and knowledge. ... promoting energy efficiency, and minimizing our environmental impact throughout the product life cycle; Set objectives ...

CIRCOR's strategic market leaders and their teams leverage these brands to develop and deliver customized solutions, backed by experienced service and support, that meet the specific needs of customers around the world. Contact Us. Please wait. For more information, complete the form below, and a representative will be happy to follow up ...

for the world's most demanding energy applications Energy CIRCOR Energy is a market-leading, global provider of integrated flow control solutions in the expanding and evolving oil and gas and power generation industries, specializing in highly engineered valves, instrumentation and pipeline products and services.

CIRCOR is a world leader in the development, engineering, manufacturing, distribution, service and support of fluid handling systems. With a history dating back to 1860, CIRCOR serves a wide range of industries including oil and gas, commercial marine, defense and power generation. We also produce well-known global
