

What is a climate controlled outdoor equipment cabinet?

Our floor or pad mount climate controlled outdoor equipment cabinets are ideally suited for Macro Cell Site and Centralized Radio Access Network (CRAN) applications. AZE has developed a line of solutions to assist these deployments with rugged and compact enclosures for today's dynamic cell site needs.

What makes a good climate-controlled cabinet?

A quality climate-controlled cabinet begins with insulation. At American Products, we recommend all enclosures with climate control be outfitted with insulation. Using insulation helps to control how much heat is allowed in and out of your enclosure. This makes your heater or air conditioner more efficient.

What is an outdoor Telecom cabinet enclosure with air conditioner?

The outdoor telecom cabinet enclosure with air conditioner realizes heat absorption and cooling through compression refrigeration, and transfers the heat emitted by the equipment in the cabinet to the outside of the cabinet in a closed environment of the cabinet. Our outdoor Telecom Enclosures are widely used in the area of:

Where are American products temperature-controlled enclosures made?

At American Products, all of our temperature-controlled enclosures meet NEMA standards and are made right here in the United States. If you're looking for a climate-controlled cabinet or enclosure, we can help. Look through our catalog of products to learn more about your heating and cooling options, or contact us with questions.

How do I choose a NEMA rated cabinet?

Cabinets with a 3, 3R, 4, 4X NEMA standard are all properly made to withstand the outdoor elements to varying degrees. The key is to select the enclosure rating that best meets your environmental needs, and then find an appropriate enclosure with that rating.

What is a Mier temperature controlled enclosure?

Mier's Temperature Controlled Enclosures are designed to provide a degree of protection from rain, sleet, snow, ice, dirt, and dust. Mier offers NEMA 4X, NEMA 4, and NEMA 3R type indoor/outdoor enclosures. Mier recommends the air-conditioned and heated (ACHT) models for most applications.
