Brussels, 15 November 2018. Hydrogen fuel cell technology is ready and set to power Europe's sustainable development, it was revealed this evening at a high-profile Awards Ceremony in Brussels, as the Fuel Cells and Hydrogen Joint Undertaking (FCH JU) rewarded its top projects for innovation excellence. The 2018 Awards Ceremony is the first of the FCH JU, a public ...

18 May 2022 In the context of the ongoing energy supply and price crisis, and given our long term environmental and energy security objectives, it is clear that Europe cannot afford to waste energy. Energy efficiency solutions such as cogeneration are vital for reducing the consumption of fossil fuels and also for extracting the maximum

The Isle of Man is a self-governing British Crown Dependency in the Irish Sea, between Great Britain and Ireland. As head of state, Charles III holds the title Lord of Man and is represented by a Lieutenant Governor. The government of the United Kingdom is responsible for the isle's military defence and represents it abroad. Humans have lived on the island since before 6500 BC. ...

12 July 2021. Background. To curb our emissions and keep temperature levels well below +1.5 o C, in accordance with the EU's Green Deal and our international obligations, the replacement and modernisation of our heating and cooling systems is vital.. In October 2020, the European Commission published its Renovation Wave Strategy, recognising the decarbonisation of ...

In the MAN Truck & Bus Group, the MAN Nuremberg plant is the International Competence Centre for the development, production, and sale for future efficient engine technology. For the group, the plant is the consolidated body of expertise where about 3,500 employees are concentrated and up to 100,000 engines are produced every year. Understandably, the
