From fund specialists to corporate lawyers, engineers and planners, our people's diverse backgrounds and skills make for a robust business which is able to scale both rapidly and responsibly.

"GE Renewable Energy will supply the battery energy storage system and Conrad Energy will construct, own, and operate the projects, including optimising the projects through our trading desk." "Adding storage to the UK energy system makes renewable energy more valuable," says Quiterio. Credit: Sonia Quitiero.

The BESS project will be used to store renewable energy for flexible purposes for the grid. The facility, which is scheduled to be operational by the end of 2024, will have a total of 15 energy storage containers. Conrad Energy is also set to implement measures to demonstrate a 15.37% gain in habitat units and a 10.4% gain in hedgerow units.
