

Shell Energy Australia has partnered with Green Investment Group (GIG), part of Australia-based venture capital fund Macquarie Asset Management, to build the 200 MW/400 MWh Rangebank battery energy storage system (BESS) in the 20-hectare Rangebank Business Park in Cranbourne on Melbourne's southeast.

The Rangebank BESS project will be connected to Victoria's transmission network via the adjacent Cranbourne Terminal Station, which is operated by Australian energy delivery services company, AusNet. Power will be diverted using an underground cable system to 220kV connection equipment located within the Cranbourne Terminal Station.

A massive Cranbourne West battery storage unit larger than South Australia's "Big Battery" has been approved by the State Government. The State Planning Minister granted a permit on 12 August for the 200 megawatt/400 megawatt hour lithium ion Rangebank Battery Energy Storage System at 280 Evans Road.

Scheduled for completion in 2025, Mornington BESS is a utility-scale Battery Energy Storage System (BESS) located in Victoria's Mornington Peninsula. Our commitment to a brighter future. The battery system will store approximately 480MWh of ...

Rp 001 R01 20210002 - Cranbourne BESS - Acoustic Report 11 . 7.0 NOISE PROTOCOL 7.1 Zoning of subject site . Noise Protocol noise limits are determined on the basis of the zoning of land nearby the noise sensitive area. Currently, the subject site is zoned UGZ1 (Urban Growth Zone), which is designated type 1 unless a
