

Why is the Croatian power system interconnected with other countries?

For the security reasons, quality of supply and exchange of electricity, the Croatian power system is interconnected with the systems of neighboring countries and together with them it is connected into the synchronous network of continental Europe.

Is Croatian transmission system operator a joint stock company?

Pursuant to the Decision of the Commercial Court in Zagreb no. Tt-22/17075-2 from 11th April 2022, the conversion of the Croatian Transmission System Operator as limited liability company into a joint stock company was entered in the court register.

Is Croatian power system a transit system?

By reconnecting the UCTE synchronous zones 1 and 2, the Croatian power system has become a transit system again. The Croatian power system is a control area by HOPS. Together with the Slovenian power system and the power system of Bosnia and Herzegovina it constitutes the control block SLO - HR - BIH within the ENTSO-E association.

With over three decades of experience, Specialised Power Systems Limited has grown from strength to strength, building a reputation founded on excellence. About Us Specialised Power Systems is a prominent provider of customized power solutions, boasting expertise in a continually evolving industry.
