

What is a cubic modular system?

The CUBIC Modular System is based on a concept of standard modules in steel for the construction of electrical switchboard systems up to 6300A. These relatively few standard parts not only makes it possible to construct any type of enclosure it also offers full independent in relation to your choice of electrical components.

Why should you choose cubic modular?

Whenever the need for a safe and efficient power distribution is needed, the CUBIC Modular system is the answer. The modular thinking behind our signature enclosure system makes it possible to build every type of switchboard solution in the low-power segment, based on several standard parts, without compromising on quality.

What is cubic's product programme?

CUBIC's product programme consists of the five following areas: Modular System switchboards, standard and customized enclosures, CPS25, Cu-flex busbar connections and electric components & switchgear. The CUBIC Modular System is based on a concept of standard modules in steel for the construction of electrical switchboard systems up to 6300A.

What is Cubic Global Training?

The CUBIC Global Training programme is developed for authorized system integrators to use the modular system as per documentation. It represents a joint commitment that can be relied upon by consultants and end users worldwide for switchboards based on the CUBIC Modular System.

How big is a cubic module?

The main module of the CUBIC modular system is 192 mm, which is remarkable for being divisible by 12 figures without decimals. During the construction of a panel, logical main and sub modules are used so that the fitter need not take millimetres into consideration. All fitting is done by means of only very few tools.

Where can cubic solutions be used?

Anywhere there is a necessity for safe, reliable and efficient operation of electrical switchgear and equipment. The versatility of the Modular System is underlined by the fact that CUBIC solutions are used in such various industries as OEM, mining, infrastructure, marine, production industry, power plants, renewable energy, offshore etc.

News CUBIC Modular System. News Uncategorized. CUBIC Modular System. By Colin Sherlock-March 10, 2019. 0. 0. Share. Facebook. Twitter. LinkedIn - Advertisement - Safe and reliable power distribution. CUBIC is an original equipment manufacturer of systems for switchboards, and MCC's up to 1000V. The company was established in 1973 and from the ...

Der er behov for en sikker og effektiv strømfordeling, er CUBIC Modular-systemet svaret. Den modulære tankegang bag vores signaturkabinet-system gør det muligt at bygge alle typer af tavle-løsninger i lavstrømssegmentet baseret på flere standarddele uden ...

The NHP CUBIC Modular System enables versatile construction of electrical switchboard solutions for almost every purpose and industry, wherever there is a necessity for safe, reliable and efficient operation of electrical switchgear and equipment. The versatility of the system is underlined by the fact that CUBIC solutions are used in such ...

About CUBIC. CUBIC, a Rockwell Automation Company, was founded in 1973 based on a unique idea of a modular system for the construction of electrical panels. This idea has since the early start developed CUBIC into a global and recognized partner within electro mechanicals and with a product range that comprises any type of enclosure.

Het CUBIC Modular System opent een wereld van mogelijkheden om te voldoen aan elke. Meer lezen 29 juni 2023 LinkedIn. Ontmoet ons op Future in Pharmaceuticals Ireland 2023! We kunnen niet wachten om je op 5 juli te verwelkomen bij de CUBIC-stand in het Croke Park Stadium in Dublin. Kom langs bij de stand.

The CUBIC Modular System opens a world of opportunities to meet every. Read More June 29, 2023 LinkedIn. Meet us at Future in Pharmaceuticals Ireland 2023! We cannot wait to welcome you at the CUBIC booth at Croke Park ...

Cubic Modular System India Private Limited is a Private incorporated on 20 July 2020. It is classified as Non-govt company and is registered at Registrar of Companies, Chennai. Its authorized share capital is Rs. 46,000,000 and its paid up capital is Rs. 46,000,000.

Modular System; CPS25; Electrical components; Cu-flex. Flexible copper busbar; Standard & Customized Solutions; Tests. Tested solutions; UI standard and CUBIC; IEC 61439 standard and CUBIC; ... CUBIC-Modulsystem A/S Skjoldborgsgade 21 DK-9700 Brønderslev Tel: +45 9882 2400 E-mail: info@cubic .

The NHP CUBIC Modular System enables versatile construction of electrical switchboard solutions for almost every purpose and industry, wherever there is a necessity for safe, reliable and efficient operation of electrical switchgear and ...

Products CUBIC's product programme consists of the five following areas: Modular System switchboards, standard and customized enclosures, CPS25, Cu-flex busbar connections and electric components & switchgear. The CUBIC Modular System is based on a concept of standard modules in steel for the construction of electrical switchboard systems up to 6300A. These ...

Design systems that best fits your plant - CUBIC Modular System is brand agnostic; No need to over design. Best-fit engineering combined with multiple power input locations; Cut accreditation time - CUBIC Modular Systems are tested and verified ...

The NHP CUBIC Modular System is based on the concept of efficiently using standard parts to construct a tailored switchboard to achieve your individual project requirements. The system is independently tested for verification to IEC 61439, making all documentation directly applicable to AS/NZS 61439 "Original Manufacturer" verification ...

Press releases Find the latest press releases from CUBIC-Modulsystem A/S below. Read more Press Releases Rockwell Automation Announces Intent to Acquire CUBIC Published 03-10-2022 Rockwell Automation, Inc., the world's largest company dedicated to industrial automation and digital transformation, today announced that it has signed a definitive ...

Chaque fois que le besoin d'une distribution électrique sûre et efficace se fait sentir, le système Cubic Modular est la réponse. La pensée modulaire qui sous-tend notre système d'armoire caractéristique permet de construire tout type de solution de tableau de distribution dans le segment de la faible puissance, sur la base de plusieurs ...

CUBIC's efficient and flexible modular systems combined with Rockwell's intelligent devices and industry expertise will benefit customers by offering faster time to market, enabling broader plant-wide applications for intelligent motor control, and generating smart data to increase sustainability and productivity.

Electrical components One of our key focuses is adding value to our Partners' businesses. With our range of electrical components, we provide added value through safety, increased competitiveness and easy mounting. As with ...
