

What is cmlu Energy AG?

CMBlu Energy AG enables a sustainable and fair energy transition in various sectors and markets. CMBlu Energy AG specializes in energy storage, renewables, redox flow batteries, e-mobility, organic flow, energy future, sustainability, and energy transition.

What's happening at cmlu Energy AG?

Technology breakthroughs, awards, company updates - there is a lot happening at CMBlu Energy AG. Watch this space to stay up to date with the latest developments. Our Organic SolidFlow battery is ready to power the renewable energy transition. Discover our green battery technology.

Where is cmlu energy working?

Currently, CMBlu Energy, together with cooperation partners, is working on multiple pilot projects in Europe and the US to validate the large energy storage solutions; including in the Austrian state of Burgenland, in the US in Wisconsin and Arizona, and with the Uniper power plant Staudinger near Hanau, Germany.

How STRABAG is partnering with cmlu energy?

By joining forces with storage producer CMBlu Energy, STRABAG is planning to speed up the development of specific large energy storage projects through their support with construction and infrastructure. Through their complementary connection, both companies set the goal to give the energy transition a substantial boost.

How many employees does cmlu energy have?

CMBlu Energy employs over 190 employees in Germany and the USA - 100 of which work in research and development. With the upcoming serial production and market entry of their energy storage systems in Europe and the USA, the company is focusing on a clear course of growth. Press contact at CMBlu Energy AG:

What is Uniper doing with cmlu Energy AG?

Uniper is cooperating with CMBlu Energy AG to jointly install a new type of environmentally friendly large-scale power storage system. The technology and economics of the storage system will be evaluated over the next two to three years as part of the project.

CMBlu Energy AG enables a sustainable and fair energy transition in various sectors and markets. It specializes in energy storage, renewables, redox flow batteries, e-mobility, organic flow, energy future, sustainability, and energy transition. Products and Services. Powered by AI .

Uniper is cooperating with CMBlu Energy AG to jointly install a new type of environmentally friendly large-scale power storage system. The technology and economics of the storage system will be evaluated over the next two to three ...

Zeitliche Arbitrage am Day-Ahead-Markt und die Erl&#246;sm&#246;glichkeiten an den Intraday- und Regelleistungsm&#228;rkten generieren hohe Zusatzergebnisse. CMBlu entwickelt eine integrierte KI-basierte Softwareplattform f&#252;r die Erschlie&#223;ung der gesamten Wertsch&#246;pfungskette - von der Einsatzoptimierung bis hin zum Strommarktzugang.

Commercial & Industrial applications for energy storage with Organic SolidFlow batteries. Operators of commercial or industrial sites face numerous challenges when it comes to energy supply. These can be clustered into three categories: ...
