

The Environmental Choice. A 1 kW grid interactive solar system will save roughly 7 tonnes of carbon dioxide per year. If all Australian households switched to solar hot water and renewable energy sources we could reduce Australia's dependency on coal-fired power stations by a full 50%.. The widespread use of non-renewable energy from fossil fuels has resulted in massive ...

5 reviews of SUNBEAM SOLAR "I priced three different companies before making the decision to go with Sunbeam Solar. I really felt that Karen cared about me. She made a point of taking pictures of my fur babies and bringing them treat bags when she returned to the home for a second visit. The electricians (Wise Electric) were David and Clint. I didn't catch all of the ...

Established three years ago, we are a dynamic and innovative solar company that has relocated to Cyprus, driven by our passion for renewable energy, especially photovoltaic technology. Our mission is to help as many households as possible counter rising electricity costs by producing their own power and leaving a green footprint on the world.
