Dalkia Energy Solutions recently partnered with Global Give-A-Book to fundraise and we are so excited about our collaboration! Based in one of our home cities, Albuquerque, New Mexico, Global Give-A-Book, Inc. is a 501(c)(3) nonprofit organization existing as a scalable solution for the identified lack of literacy resources among today's children.

Green energy now accounts for over 50% of the energy mix in heating networks. Furthermore, heating networks are synonymous with the creation of new jobs! Renewable and recovered energy often comes from local sources such as geothermal and marine energy sites and waste-to-energy facilities. And many local companies are involved in building each ...

Ensuring the energy efficiency of all your buildings is our objective: together, let's build an action plan adapted to your needs! The energy consumption reduction targets depend on the current situation of your buildings and are set by law for some countries (in France: - 40% by 2030; - 50% by 2040; - 60% by 2050).

Our proposed solution focuses on making the tower's day-to-day operations and maintenance more effective, particularly for its mechanical, electrical, and plumbing systems. We're also implementing energy-efficient practices and ...

Today's hype around Smart Grid 2.0 continues to be focused on utilities and the homeowner. Policy makers predict intelligent networks of electrons flowing in and out of the home. The theory is that during peak-pricing, high-demand periods, utilities will save homeowners money by automatically slowing down their air conditioners and refrigerators and buying electricity from ...

Dalkia Energy Solutions, EDF Group specializes in the development, construction and management of innovative clean energy solutions. We will help conduct thorough building energy assessments for your building portfolio, reviewing all aspects of your building and its energy consuming systems, with the goal of identifying the best opportunities ...

Dalkia is an international leader in developing energy management programs designed to help organizations reach their Greenhouse Gas (GHG) reduction goals. We design, install, finance and maintain efficiency upgrade projects at facilities across the US, helping our customers save money while positively affecting the environment.

Dalkia, a subsidiary of the EDF Group, supports its customers in their energy and digital transformations through its two business lines: the development of local renewable energies and energy savings. Dalkia develops renewable and recovered energy sources of territories and provides long-term support to its customers to help enhance their ...
