

Where is El Salvador building its first solar energy plant?

Photo: CEL. San Salvador -- The state-owned and autonomous Comisión Ejecutiva Hidroeléctrica del Río Lempa (CEL) of El Salvador will build its first solar energy plant in the country, in the municipality of Talnique, in La Libertad department in the country's southwest, around 30km (18.5 miles) west of the Salvadoran capital.

What is El Salvador's first state-owned solar power project?

Salvadorean state-owned hydro power producer Comisión Ejecutiva Hidroeléctrica del Río Lempa (CEL) this week launched construction of a 17-MWp solar PV farm in the south-west part of El Salvador. The project has the distinction of being El Salvador's first state-owned solar power initiative -- from the design and planning to execution, CEL said.

What is solivus arc?

Solivus is creating a revolutionary solar energy solution for homeowners. The Solivus Arc. Solivus Arc can provide storage solutions to meet current and future energy needs through our choice of carefully selected partners- from storing cheap off-peak energy through to customers enjoying grid-balancing income from batteries.
