

# Emergency power supply for home Tanzania

The Government of Tanzania's (GOT's) Big Results Now (BRN) initiative for 2016 aims to phase out high cost emergency power plants (EPP), increase generation capacity to 2,780 MW, reform the public utility's (TANESCO's) operations, and meet new demand through low-cost solutions, such as developing new gas resources and mini and off-grid renewable opportunities. Recent ...

Power Africa has supported the development of electricity generation projects in Tanzania. In addition, various firms have received U.S. Embassy support to move transactions forward. The page below shows Power Africa's involvement and lists Power Africa's financially closed transactions in the country, some of which are already online and generating critical ...

Mr Mongella said the bank was ready to cooperate with Dutch partners in enhancing Tanzania's development goals. This project, he said, aims to facilitate introduction of and sustained use of solar power solutions, particularly pico-solar and small solar home systems in targeted rural remote areas within the lake and central zones.

When the power goes out in an emergency it is important to be prepared. You never know when you will need emergency power so you should have your plan in place before the power goes out. When trying to prepare ...
