

Is Enercon a US company?

Privately held Enercon, founded by Aloys Wobben in Aurich, Germany in 1984, has revenues in excess of \$4 billion and is one of the world's largest producers of wind turbines. It is not active in the U.S. market. In 1992, Enercon introduced the first gearless wind turbines in the world.

Who is Enercon?

ENERCON completed the detailed Solar PV design engineering for a solar PV project for the world's largest producer of wind and solar energy. The project encompasses approximately 600 acres and will supply enough energy for up to 30,000 homes.

How many countries does Enercon work in?

Today, ENERCON is active worldwide and is already present in over 35 countries with a decentralised service and sales network. This means that we not only offer our employees international career opportunities, but also very close cooperation with team colleagues abroad. We all share a common goal: energy for the world.

What services does Enercon offer?

Enercon provides electrical and mechanical maintenance, project development, charging service, energy storage systems, and other services. It also offers logistics services including transportation of production materials and system components to the construction site.

What markets does Enercon serve?

ENERCON serves several markets throughout the energy sector and mission critical facilities. Learn how ENERCON partners with clients in the following markets. ENERCON specializes in engineering, environmental, construction, licensing, compliance and program management services. Learn more about these services below.

What makes Enercon a good company?

ENERCON is a pioneer of wind energy technology, a company that treats its business partners as equals and an attractive employer in a future-oriented sector all rolled into one.

Source: CIA World Factbook Puerto Rico is the US's third-largest Island after Hawaii and Kodiak islands. It covers 9,104 km² making it the US's largest, permanently inhabited overseas territory. Approximately 8,959 km² of Puerto Rico is land and the rest is water. It is larger than two states; Rhodes Island and Delaware and over 96% the size of Connecticut.
