

The Energy Storage Report is now available to download. In it, you'll find the best of our content from Energy-Storage.news Premium and PV Tech Power, as well as new articles covering deployments, technology, policy and finance in the energy storage market.. Energy storage continues to go from strength to strength as a sector, with the buildout in ...

The goal is on the lower end of the existing targets and mandates adopted by US states so far. Most recently, Connecticut passed a 1,000MW by 2030 deployment target, which state Governor Ned Lamont signed last week. At the upper end of the scale are Virginia's 3.1GW by 2035 and New York's 3GW by 2030 targets.

Some long-duration energy storage (LDES) technologies are already cost-competitive with lithium-ion (Li-ion) but will struggle to match the incumbent's cost reduction potential. That's according to BloombergNEF ...

One of the fund's existing UK battery storage projects. Image: Gresham House. London Stock Exchange-listed energy storage investor Gresham House Energy Storage Fund has secured a £380 million (US\$507 million) funding package from major UK ...

Energy Storage provides a unique platform for innovative research results and findings in all areas of energy storage, including the various methods of energy storage and their incorporation into and integration with both conventional and renewable energy systems. The journal welcomes contributions related to thermal, chemical, physical and mechanical energy, with applications ...

Inverter and BESS firm Sungrow pointed out to Energy-Storage.news in a recent interview that its latest generation product increased the energy-per-container from 2.5MWh to 5MWh but the max noise emissions ...

RMI provided project development and project management assistance to the Government of Montserrat and the utility company in the installation of a 750 kW ground mount solar system and 1 MWh of battery ...

Some long-duration energy storage (LDES) technologies are already cost-competitive with lithium-ion (Li-ion) but will struggle to match the incumbent's cost reduction potential. That's according to BloombergNEF (BNEF), which released its first-ever survey of long-duration energy storage costs last week. Based on 278 cost data points, the ...

A consortium of developers has achieved financial close for US\$1.3bn in debt facilities for the Red Sea project, a huge resort under construction off the coast of Saudi Arabia which plans to have the largest off-grid battery energy storage system at 1,200-1,300MWh.

Energy Storage provides a unique platform for innovative research results and findings in all areas of energy storage, including the various methods of energy storage and their incorporation into and integration with both conventional and ...

Octopus Energy will use the BESS projects" batteries at a price determined by the duration of the assets - expressed in hours - though it excludes Capacity Market payments the projects will receive separately.. Kieran Stopforth, head of flexibility for Octopus Energy, said: "Through this landmark deal with GRID we're not only increasing the size of our virtual power ...

Gresham House Energy Storage Fund has entered a power purchase agreement (PPA) with a subsidiary of Octopus Energy for 14 of its battery projects, totalling 568MW/920 megawatt hours (MWh), in the UK. The two-year fixed-price contracts, in place from 1 July 2024, cover approximately half of the company"s 1.07GW target portfolio.

Every edition includes "Storage & Smart Power", a dedicated section contributed by the Energy-Storage.news team, and full access to upcoming issues as well as the nine-year back catalogue are included as part of a subscription to Energy-Storage.news Premium. About the Authors . Josh Tucker is engineering manager for the Energy Storage ...

The goal is on the lower end of the existing targets and mandates adopted by US states so far. Most recently, Connecticut passed a 1,000MW by 2030 deployment target, which state Governor Ned Lamont ...

Energy-Storage.news" publisher Solar Media will host the 5th Energy Storage Summit USA, 28-29 March 2023 in Austin, Texas. Featuring a packed programme of panels, presentations and fireside chats from industry leaders focusing on accelerating the market for energy storage across the country. For more information, go to the website.

IESA"s VISION 2030 report was launched at this year"s India Energy Storage Week event. Image: IESA. To integrate a targeted 500GW of non-fossil fuel energy onto its networks by 2030, at least 160GWh of energy storage will be needed in India by that time, according to the India Energy Storage Alliance (IESA).
