

Image: NGEN developer NGEN is deploying the largest battery energy storage systems (BESS) in Slovenia, Austria and Croatia, and wants to take its model beyond CEE too, CEO and co-founder ... The Slovenia ...

Long-duration energy storage (LDES) is the linchpin of the energy transition, and ESS batteries are purpose-built to enable decarbonization. As the first commercial manufacturer of iron flow battery technology, ESS is delivering safe, sustainable, and ...

The European Commission (EC) on Friday approved, under EU state aid rules, a EUR-150-million (USD 161m) scheme in Slovenia that aims to support the expansion of renewable energy, heat and energy storage. The European Commission (EC) on Friday approved, under EU state aid rules, a EUR-150-million (USD 161m) scheme in Slovenia that ...

NGEN, a developer based in Slovenia, has celebrated the installation of a 22MWh grid-scale battery energy storage system (ESS) supplied by Tesla in what is thought to be the product's first deployment in the Balkans.

New company NGEN appears to have introduced the Powerpack battery to central Europe in a EUR15 million, 12.6 MW/22.6 MWh project in the northwest of the country which is the first of two planned ...

Stay Informed with All Ongoing Battery Energy Storage System (BESS) Project Developments in Slovenia. Never miss another business opportunity. Our cutting-edge AI-powered technology, Black, continuously scans and monitors hundreds of thousands of news and tender sources worldwide, uncovering all the ongoing battery energy storage system (BESS) projects in Slovenia.

Tesla Powerpack installed in Slovenia's first grid-scale battery system <https://www.energen.com/en/tesla-powerpack-installed-in-slovenias-first-grid-scale-battery-system> ... Slovenia-based energy system solutions firm NGEN has deployed the 12.6MW/22MWh Tesla Powerpack system at a cost of \$16.5 million in the first of many projects by NGEN aiming at providing automated grid-balancing services for customers.

Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel Murtagh. Premium News December 10, 2024 News December 10, 2024 Sponsored Features December 10, 2024 News December 10, 2024 Premium Features, ...

The Kozjak pumped hydropower project in Slovenia consists of a 440 MW plant and a 400 kV transmission line, CEO of state-owned utility DEM Damjan Seme said. The company is also working on a project for two battery ...

German energy company Uniper SE (ETR:UN0) on Monday said it will build a 50-MW/100-MWh battery

energy storage system at the Heyden power plant site in Petershagen in the northwestern German state of North Rhine-Westphalia in partnership with Slovenian battery system provider NGEN.

150-million (USD 161m) scheme in Slovenia that aims to support the expansion of renewable energy, heat and energy storage. The programme will provide direct grants of up to EUR 25 million per beneficiary to speed up investments in renewable energy production and energy storage. Aid will be provided no later than December 31, 2025 Policies & Market

Slovenia's NGEN first started utilizing Tesla Megapacks for energy storage and grid stabilization in 2019. The country became the first in the Balkin Peninsula to install a grid-scale battery ...

Energy-Storage.news reported on the official switch-on of the 12.6MW / 22MWh lithium-ion battery system last week, by locally-headquartered technology company NGEN. The company was founded by entrepreneurs Roman Bernard and Damian Merlak and proclaims itself to be "entering the European market with new technological solutions for the ...

In Slovenia, the company is building the biggest energy storage facility in the country adjacent to the aluminium maker Talum in Kidri?evo. The EUR70 million project will have a capacity of 70 MW/140 MWh, with Bernard stressing that Slovenia will soon become a leader in Europe by energy storage per capita, which will be important as new solar ...

In September 2020, Energy-Storage.news reported on a EUR20 million grant from the EU to Croatia-based energy storage operator IE-Energy for the firm to deploy projects in the country. In April, Croatia and its neighbour Slovenia started a trial project looking at how a five-hour duration battery storage system could increase grid flexibility in ...

The establishment of a battery storage system in a small hydropower power plant in Idrija is carried out by Kolektor Sisteh as part of a three-year smart grid project. New Energy and Industrial Technology Development Organization (NEDO), its authorized contractor Hitachi and ELES are the main partners.
