Kupfer wondered how it is working given that the power demand is on the north shore of that island, but the facilities are on the south shore. He doesn't think the Virgin Islands would do well privatizing the utility. The islands are relatively small and spread out and a large company couldn't come in and share resources easily, he said.

"As a proud native of the U.S. Virgin Islands, I understand the impact of an unpredictable electric system," HUD Acting Secretary Adrienne Todman said in a statement. "Virgin Islanders should not have to worry about losing power every day; business owners should be able to open their stores and restaurants confidently.

N2 - This profile provides a snapshot of the energy landscape of the U.S. Virgin Islands (USVI) - St. Thomas, St. John, and St. Croix.
