ESSE offers a full-line of Generac Power Systems Inc. power generation products. We will keep you in power, but more than that we will keep you empowered to keep moving. We are #morethanpower

The Lithuania 100% Renewable Energy Study. ... High-quality wind and solar data is the foundation of energy systems analysis and will be a core input for the study's modeling activities. NREL's geospatial data science team will develop state-of-the-art wind and solar data at high temporal and geographic resolutions to inform the locations ...

Energy Systems Southeast can specify the system that is most efficient for your needs now and as your business grows. Below are markets we serve or download our Reference Book for sample projects. Visit our Healthcare page for the latest updates related to Nursing Homes and Assisted Living requirements.

Warming cannot be limited to well below 2°C without rapid and deep reductions in energy system carbon dioxide (CO₂) and greenhouse gas (GHG) emissions. In scenarios limiting warming to 1.5°C (>50%) with no or limited overshoot (2°C (>67%) with action starting in 2020), net energy system CO₂ emissions (interquartile range) fall by 87-97% (60-79%) in 2050.

WASHINGTON, D.C. - U.S. Secretary of Energy Jennifer M. Granholm and Minister of Energy Dainius Kreivys today signed an Intergovernmental Agreement to cooperate on the development of Lithuania's civil nuclear power program. This agreement marks the first such intergovernmental framework led by the Department of Energy with a specific focus on the ...
