

What is ennogie solar group?

Ennogie Solar Group is on a mission to create a future where renewable energy in the built environment is the norm, not the exception. We are passionate about making a positive impact by developing and deploying innovative solar technologies and energy optimization practices.

Does ennogie solar group expect a capital increase?

Ennogie expect a further capital increase through the exercise of warrants to the amount of DKK 12.3m in the last quarter of the year. Ennogie Solar Group is on a mission to create a future where renewable energy in the built environment is the norm, not the exception.

What is ennogie's business strategy?

Ennogie's business strategy revolves around a combination of innovative product development and a tightly integrated ecosystem. One of the key aspects of Ennogie's strategy is our focus on creating our own products, including hardware, software, and concepts, which sets us apart from many other companies in the industry.

Why is ennogie focusing on the B2B segment?

Ennogie is increasingly focusing on housing associations and the B2B segment in both Germany and Denmark, where larger orders require a bigger inventory, security and credit. The increased procurement of panels and inverters primarily contributes to the increase in capital tied up in inventory buildup.

When the roof's dimensions do not match the size of the solar cell modules exactly, we use a so-called adapter module. It looks similar to the solar cell modules, but it does not produce energy and it can be cut to the exact size at the construction site. The adapter module is also used for skylights and chimneys etc.
