

The Electric Reliability Council of Texas (ERCOT) has continued its 2024 energy storage deployment charge after it cleared 650MW worth of battery storage capacity for commercial operation during the month of June, according to the system operator's monthly generation interconnection status report. Jupiter Power puts Energy Vault BESS project ...

Battery storage developer Spearmint Energy has started building a 150MW/300MWh unit in the ERCOT, Texas market, its first project. The company announced the start of construction of the two-hour duration ...

The 561MWh co-located Slate BESS project in California, which Recurrent Energy recently sold in January last year. Image: Recurrent Energy. Canadian Solar subsidiary Recurrent Energy has acquired two standalone energy storage projects in development totalling 400MWh in the ERCOT, Texas market.

Battery energy storage capacity in ERCOT is growing at a rapid pace. The buildout of battery energy storage resources in ERCOT has been rapid. In the past three years, total installed capacity has grown by 12x. And, according to interconnection queue data, batteries should continue to come online at an accelerated pace in 2024. ...

As a result, commercially operational battery energy storage capacity in ERCOT now stands at 6.4 GW. This is up 60% from just over 4 GW at the beginning of the year.. In addition to 731 MW, 878 MWh of batteries - by energy capacity - became commercially operational. This meant that September was not quite a record for battery installations by ...

The BESS will provide reliability and ancillary services to grid operator ERCOT to help it integrate growing renewable load in the state. The ERCOT, Texas market is among the busiest in the US for energy storage

deployments and could overtake California for installed capacity next year, when it is set to hit 9.5GW online in September.. Engie North America has ...

ERCOT Advanced Grid Support Inverter- based Energy Storage System Assessment and Adoption Discussion. Shun Hsien (Fred) Huang. Operations Support. ERCOT IBRWG Meeting. July 12, 2024. ERCOT Team Support. Operations: Yunzhi Cheng, Amro Quedan, Ali Yazdanpanah, Hamzeh Davarikia Planning: Sun Wook Kang, John Schmall, Poria ...

o The ERCOT energy markets performed competitively in 2023, and the IMM found little evidence that suppliers exercised market power in the ERCOT energy market. o In 2022, the IMM noted a concern with competitiveness in the non-spinning reserve market. In March of 2023, the Voluntary Mitigation Plans (VMP) were modified to

IPP Vitis Energy has acquired a 200MW BESS project in the ERCOT, Texas market from developer Black Mountain Energy Storage (BMES). The Apache Hill BESS project is located adjacent to the 2.4GW Comanche Peak nuclear power plant in Hood County, the second-largest generating unit in Texas.

IPP Ormat Technologies has signed seven-year tolling agreements with optimiser Equilibrium Energy for two BESS projects in the ERCOT, Texas market. ... The two companies have agreed the tolls for the Lower Rio 60MW/120MWh and Bird Dog 60MW/120MWh battery energy storage system (BESS) projects. This article requires Premium Subscription ...

In the first four months of 2024, the rated power of commercially operational battery energy storage systems in ERCOT grew by 955 MW. That means the total installed rated power of batteries in ERCOT is 4.6 GW (as of the end of April).. This is 22x higher than three years ago. And total installed rated power has doubled in the past twelve months alone.

In June 2024, ERCOT experienced its largest-ever monthly increase in new battery energy storage capacity. 649 MW of rated power - with 1,040 MWh of energy capacity - became commercially operational across five ...

RWE Clean Energy is the second largest operator of solar and third-largest in renewables overall in the US. Image: RWE Clean Energy. German energy company RWE said yesterday (2 October) it has broken ground on ...
