

About Solar Discover solar About SolarPower Europe Our story ... SolarPower Europe has published its new market intelligence report, the European Market Outlook for Battery Storage 2024-2028. The report illustrates the state of play of battery storage across Europe, with updated figures on annual and total installed capacities up to 2023 and a ...

Team Europe in Guinea-Bissau brings together the EU, the European Investment Bank, France, Portugal, and Spain, and focuses on education and training towards an inclusive and green transition ... The EU health programme contributed to equip 5 regional hospitals and 7 health centres with water supply and solar electricity systems and provide ...

With the first edition of the SolarPower Europe Agrisolar Best Practices Guidelines, we take an exciting first step in joining forces with agricultural stakeholders, to better understand how the solar and agricultural sector can work more closely together, enhancing synergies to advance the energy and climate transition.

The EU Solar Jobs Report 2022 edition shows that in 2021, the solar sector employed 466,000 full time employees (FTEs) in the EU, that's 108,000 more than 2020. While 44% of the total, 205,000 FTEs were employed directly in the solar sector, a slightly higher share were indirect jobs - 57% and 260,000 FTEs -, which encompasses work in process ...

Rural Electrification through Solar Mini-Grid in Guinea-Bissau Operations Procurement Notices ... Rural Electrification through Solar Mini-Grid in Guinea-Bissau Guinea Bissau. Financing Type: Grants: Category: Energy Poverty: Focus Area: Energy: Approved: 22.07.2015: Signed: 04.09.2015: Loan Administrator: OPEC Fund for International ...

The World Bank, IDA, ESMAP, and GCF are funding Guinea-Bissau's first solar power plants with a \$78.15 million investment to support decarbonization and expand electricity access. The project will build solar ...

The solar sector is booming, and we cannot let the shortage of skilled workers hold us back from driving the energy transition. In our latest EU Solar Jobs Report, our modelling shows that we need at least 1.1 million solar workers in Europe by 2030 to meet the EU's climate targets. Ensuring the industry's sustainable growth and delivering ...

The Global Gateway as an EU Strategy supports Guinea-Bissau in reducing high levels of poverty and inequality and addressing governance challenges in line with the country's National Development Plan. Under the Neighbourhood, Development and International Cooperation Instrument (NDICI-Global Europe), the EU has allocated EUR 112 million in grant ...

SolarPower Europe launches its "Solar Powers Heat 2023" report revealing how solar PV and heat pumps empower households to reduce gas use and save on energy bills. When installed together, solar PV and heat pump saved households in Germany, Spain, and Italy between 62% -84% on annual energy bills in 2022. ...

A dual land-use approach responds to renewable energy production needs, while simultaneously enhancing the value of agricultural production. Specifically, it facilitates climate adaptation measures and increases the agricultural sector's resilience towards climate crises, by providing optimal protection of crops in extreme weather conditions.

Solar power is set to generate more than 60% of EU's electricity by 2050; ... President of SolarPower Europe, said: "A 100% renewable energy system enables the EU to become climate neutral before 2050, complying with the ambitious 1.5°C Paris Agreement target, and without resorting to carbon sinks. This Leadership scenario will also ...

The World Bank has announced that it will support the development of Guinea-Bissau's first solar power plants. Like other West African countries, Bissau wants to use this solution to decarbonise its electricity ...

Supported by the EU-India Clean Energy and Climate Partnership, the National Solar Energy Federation of India and SolarPower Europe have jointly published landmark best practice guidelines for engineering, procurement, and construction (EPC) of solar projects in India.. The "EPC Best Practice Guidelines: India Edition" is a product of the joint Indian-European EPC ...

Eastern Europe solar PV outlook 2023. 30 June 2023. This regional report analyses the 10-year outlook for solar power development in Eastern Europe and the Russian and Caspian sub-regions. \$5,990. Market Report Southern Europe solar PV outlook 2024. 06 December 2024.

Our Southern Europe solar PV market outlook 2024 covers the key solar market drivers and challenges for large-scale development and distributed solar generation in Iberia, Italy, Greece, Turkey and the Balkans. Installing almost 64 GWdc of solar PV, Italy will add more capacity than any other regional market in the next 10 years. ...

This report builds on the first edition of solar investment opportunities in Kazakhstan. This update contains the latest economic and political advancements in the country, including the announcement of Kazakhstan's new decarbonisation target for 2060, and the recent Memorandum of Understanding signed between the EU and Kazakhstan, stepping up ...
