

When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Who is solar Fiji?

With over 18 years of experience in the solar industry and a track record of successfully deploying over 20MWp of solar projects in Australia and the South Pacific, Solar Fiji is your go-to renewable energy service provider in the region. Our quality workmanship and commitment to customer satisfaction set us apart from the competition.

Why should you choose solar Fiji?

As an official partner of Victron Energy, our quality solar products and services are designed to maximize the longevity of your system, providing energy efficiency and cost savings for the long term. If you're looking for a reliable and experienced renewable energy service provider in the South Pacific, look no further than Solar Fiji.
