

The US added 8.6GW of new solar capacity in the third quarter of this year and began solar cell manufacturing for the first time since 2019. SolarEdge announces layoffs and closes storage division ...

French energy minister Ségolène Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables generation ...

Areas of importance for seabirds tracked from French southern territories, and recommendations for conservation Karine Delord, n, Christophe Barbrauda, Charles-André Bosta, Bernard Deceuninckb, Thierry Lefebvrec, Rose Lutzc, Thierry Micolb, Richard A. Phillipsd, Phil N. Trathand, Henri Weimerskircha a Centre d'Études Biologiques de Chizé, UMR 7372 du Centre ...

The Khauta project is the NOA Group's first "large-scale" solar project. Credit: Globeleq. German renewables developer Pure New Energy (PNE) has sold a 240MW solar project in South Africa to ...

Off-grid solar solutions, for example, grew by 18% in 2022 in developing Asia and sub-Saharan Africa. In total, since 2010, more than 180 million off-grid systems have been sold, including 150 million pico solar products and 30 million solar home systems. Source: Own illustration based on IRENA and IAE data, 2023.

French Southern and Antarctic Territories, French overseas territory consisting of the islands of Saint-Paul and Nouvelle Amsterdam and the island groups of Kerguelen and Crozet in the southern Indian Ocean, as well as the Adélie Coast on the Antarctic continent. The barren and for the most part uninhabited lands were linked for administrative purposes with Madagascar from ...

Lithium ion green energy powered by renewable sources such as solar and wind, drives Globe's market first innovation. Globe are on a mission to provide reliable and customisable renewable power products, with advanced design principles that increase efficiency, flexibility and durability, and reduces running costs. ...

Making progress on its goal of having 250MW of commercial rooftop PV power deployed within the next four years, Southern California Edison has interconnected seven new distributed-generation solar ...

Swift Current Energy has secured a tax equity investment from tech giant Google for its 800 megawatts defined conditions (MWdc) (593MWac [megawatts alternating current]) Double Black Diamond Solar project in southern Illinois, US. This move positions the project to be the largest solar initiative east of the Mississippi River.

We offer the highest efficiency commercial solar panels available¹ Based on search of datasheet values from

websites of top 10 manufacturers per IHS, as of January 2017., unmatched durability2 #1 rank in "Fraunhofer PV Durability Initiative for Solar Modules: Part 3",. PVTech Power Magazine, 2015. Campeau, Z. et al. "SunPower Module Degradation Rate," SunPower ...

"The swift and collaborative process was a testament to our mutual commitment to making this partnership a success. It became evident during our due diligence that the EDF Renewables team is top-notch, and we greatly value the professionalism and expertise each department demonstrated.". The initiative is a collaboration with Potentia Renewables, PSEI's ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

TotalEnergies has started commercial operations of Danish Fields and Cottonwood, two utility-scale solar farms with integrated battery storage in south-east Texas, US. Danish Fields is TotalEnergies" largest solar farm in the US, with a capacity of 720MWp (megawatt peak) and 1.4m ground-mounted photovoltaic (PV) panels.

French Southern Territories, comprising of several islands in the Indian Ocean, are isolated with a harsh climate, making technology and telecommunications development challenging. The ...

EUR390 million, 800MW Greek solar support. The EIB has lent Greek energy company DEPA Commercial EUR390 million (US\$423 million) to support the development of 800MW of solar PV projects across Greece.

Officially, Adélie also belongs to this overseas territory as a French territorial claim over Antarctica, but due to the Antarctic Treaty, all those territorial claims are frozen. Since 2007, the Îles Éparses, some islands scattered throughout the Indian Ocean, have been incorporated into the French Southern and Antarctic Territories.
