

FlexGen's Vision with HybridOS. FlexGen's launch of HybridOS 11 energy management software underscores their vision for a sustainable and efficient energy future. By leveraging HybridOS, FlexGen aims to empower storage owners and operators with unparalleled control over their energy assets, driving the energy transition forward.

FlexGen leads the sector with 98% availability-more than 5% better than the next highest competitor. HybridOS is a software-as-a-service (SaaS) platform available for licensing worldwide. "At FlexGen, we're committed to delivering maximum value to our customers. The data is clear--software drives system availability and revenue.

2 ???#0183; Companies targeting a fully integrated made in America energy storage solution that combines Eos' Z3(TM) batteries with FlexGen's HybridOS(TM) EMS system EDISON, N.J. and DURHAM, N.C., Dec. 19 ...

Eos and FlexGen to jointly expand and develop robust pipeline opportunity of over 50 GW Companies targeting a fully integrated made in America energy storage solution that combines Eos' Z3(TM) batteries with FlexGen's HybridOS(TM) EMS system 19 December 2024

FlexGen White Paper balance, and stabilize the energy grid. By charging batteries during periods of low ... (EMS), IPPs can use value stacking to create multiple revenue streams. Beyond selling the stored electricity itself, IPPs ...
