

Eelpower has commissioned a 10MW battery energy storage system (BESS) in England, backed with both frequency response and capacity market contracts, in the first of a new pipeline of projects being planned by the company over the next decade. ... Eelpower is a UK energy storage project developer, owner and operator only founded in February this ...

65 MW Mossy Branch Battery Facility adds resiliency to Georgia's electric grid; Company leadership and elected officials tour site in Talbot County on Thursday. ATLANTA, Nov. 8, 2024 /PRNewswire ...

Construction on the sites will start in the fourth quarter of this year with a commercial operation date (COD) targeted for Q4 2024, and they will add a combined 130MWh of energy storage capacity to the UK, which ...

The UK's largest battery energy storage system has gone live in North Yorkshire. Lakeside Energy Park is a 100MW facility in Drax, near Selby, which can provide power to about 30,000 homes a day ...

Mossy Branch is also the first standalone battery storage asset connected to the Georgia Integrated Transmission System electricity grid. It will charge directly from the grid when power is cheaper, such as during periods of abundant renewable energy generation and low demand, and discharge stored energy to the network when demand and prices are higher.

The increasing energy storage pipeline The total pipeline for UK energy storage is now at 61.5GW across 1,319 sites. Image: Solar Media Market Research . The graphic above shows the submitted capacity of energy storage projects by project size and by quarter; the total pipeline has now reached 61.5GW across 1,310 sites.

New Battery Energy Storage Projects Underway Across Georgia Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia addition to the Mossy Branch ...

The project utilizes the GEMS Digital Energy Platform, Wärtilä"s energy management system, to manage the facility and provide secure operations, and is built with Wärtilä"s Quantum, a fully integrated, modular, and compact energy storage system. New Battery Energy Storage Projects Underway Across Georgia

Georgia Power leaders joined elected officials from the Georgia Public Service Commission (PSC), Georgia legislature, and Talbot and Muscogee counties on Thursday to mark commercial operation of the company's first "grid-connected" battery energy storage

Georgia Power has identified locations for 500 MW of new battery energy storage systems (BESS) authorized by the Georgia Public Service Commission (PSC) earlier this year as part of the company's 2023 Integrated

Resource Plan (IRP) Update. According to the company's recent filing with the Georgia PSC, the portfolio of BESS resources proposed by ...

Energy trading starting to make up for UK ancillary service saturation . As Energy-Storage.news has previously written, revenues for UK battery storage projects have crashed year-on-year in 2023 after higher-than-expected performance in 2022 as the saturation of ancillary service markets like FFR (Firm Frequency Response) started to have an impact.

The fourth annual UK Energy Storage Summit gathered industry professionals in the heart of London last week. The two-day event saw a wide range of topics discussed, debated, and disagreed upon, from regulatory issues to the Capacity Market to the rising demand for flexibility. In a Q& A with Energy-Storage.news, Solar Media Market Research ...

When that is the case, Georgia Power, the major energy supplier in Georgia, has to rely on carbon-polluting sources like coal power or natural gas to meet the demand of 2.7 million Georgians every day. ... "Energy storage systems can support entire building or larger electrical grids during extreme weather events," according to ACP's ...

UK clean energy developer Harmony Energy has brought online a 98MW/196MWh battery energy storage system (BESS) project. The site, located in Hull, northern England, uses a Tesla two-hour Megapack system.

US utility Georgia Power, a subsidiary of Southern Company (NYSE:SO), has brought online its 65-MW/260-MWh Mossy Branch battery energy storage system (BESS), which will improve the resilience of Georgia's electric grid.

Highview Power has secured a £300m (\$383m) investment for its first commercial-scale liquid air energy storage (LAES) plant in the UK. The funding, led by the UK Infrastructure Bank (UKIB) and Centrica, will support the construction of one of the world's largest long-duration energy storage facilities in Carrington, Manchester.
