

About TESVOLT OCEAN. TESVOLT OCEAN is a joint venture between the two maritime industry experts, TESVOLT Maritime Solutions from Germany and Ocean Batteries from Norway. Based in Lübbecke, Germany, the company develops high-performance battery storage solutions that are specially designed for the demanding conditions at sea.

At 92 percent, Tesvolt storage systems achieve one of the highest whole-system efficiency ratings found on the market. The systems are produced at the company's facility in Lutherstadt Wittenberg. Tesvolt will be presenting its ...

"Our battery-storage systems, in combination with the Sunny Island, have one of the highest levels of overall system efficiency on the market currently at 79 to 84%," said Simon Schandert, Chief Technology Officer (CTO) at TESVOLT. ... TESVOLT AG is one of the innovation and market leaders for commercial and industrial energy storage system ...

TESVOLT energy storage systems. Future-proof: Simple retrofitting or replacement of battery cells. Economical: 98% efficiency. Long-lasting: 30 years, 8,000 full cycles. High performance without compromise: 1C continuous ...

Commercial and industrial (C& I) BESS provider Tesvolt has begun construction of its latest 4GWh manufacturing plant in Germany. The new plant will be next to its existing assembly plant in Lutherstadt Wittenberg, ...

TESVOLT conducts research and development in Germany and produces high-performance battery storage systems for Smarter-E, from cabinet systems to storage parks of up to 100 MWh. Trade fairs 2024/2025. ... High-quality energy storage systems "Made in Germany" TESVOLT attaches great importance to safety, quality and innovation. ...

German energy storage solutions developer TESVOLT has started construction of a 4GWh battery energy storage system (BESS) gigafactory at its headquarters in Lutherstadt Wittenberg, Germany. TESVOLT is calling the factory one of the largest facilities for commercial stationary battery storage systems in Europe.

Germany's Tesvolt building gigafactory for battery storage systems. Surya Rao Akella 7th May 2019. Share this article Copy Link; Share on X; Share on LinkedIn ... teamtechnik's support is expected to bring an efficient and safe serial production line for the battery storage systems. Every battery module will be automatically tested for full ...

Wittenberg, Germany, 1/3/2021 - Tesvolt presents its new battery storage system, which for the first time has

its own energy management system (EMS) and an integrated industrial inverter. The TS-I HV 80 is designed to achieve exceptionally high power electricity cost savings through the use of intelligent functions.

One of Europe's largest production sites for stationary energy storage systems; Lutherstadt Wittenberg, 14 February 2023 - TESVOLT AG, one of the technology leaders for energy storage in the commercial and industrial sectors, is planning to build a new Gigafactory at its headquarters in Lutherstadt Wittenberg, Germany.

Latest generation lithium-ion cells from Samsung SDI in combination with the TESVOLT Dynamix Battery Optimizer (DBO) reduce costs and increase performance. With 35% higher energy density per module and efficient cell balancing and active cooling, this series offers low investment and operating costs and an optimal levelised cost of storage (LCOS).

Modular lithium battery storage system for commercial & industrial use. Up to 8,000 full cycles, 1C charging speed, 30-year lifespan. ... The TS-I HV 80 with integrated TESVOLT inverter and innovative energy management system impresses users with a wealth of possible applications. Whether you're interested in multi-use, back-up power, self ...

Lutherstadt Wittenberg, 6 February 2024 - In 2022, one in every two battery storage systems in Germany's commercial segment were supplied by TESVOLT. Now, the Wittenberg-based manufacturer aims to conquer the Italian market. ...

TESVOLT battery storage systems are leaders in their field. Qualified agricultural engineer Bernd-Josef Wenning, farmer and energy producer. Downloads. Use-Case_Eigenverbrauchsoptimierung_Biogas-DEU_v.C.01.pdf. Use-Case_Self-consumption-optimisation_Biogas-ENG-v.C.01.pdf. Share. To top. TESVOLT AG Am Heideberg 31 06886 ...

Image: Tesvolt. Germany-based commercial & industrial (C& I) BESS provider Tesvolt has won its largest order to-date, for a 65MWh project in Rhineland-Palatinate. The company will deploy its battery energy storage systems (BESS) for project owner-operators W Power, a developer, and local utility EWR. It will be built by contractor Timbra near ...

Tesvolt, founded in 2012, focuses on developing efficient modular storage systems, particularly products based on lithium-ion battery technology. The company's storage solutions are widely used in industrial, commercial, and agricultural applications, aimed at helping customers reduce electricity costs and improve energy management stability.
