

Is Gotion a good battery company?

In China, Gotion ranked fifth with a 3.63 percent share with 1.31 GWh installed in December, according to data released last month by the China Automotive Battery Innovation Alliance (CABIA). On June 28, 2022, Gotion announced plans to build a 20 GWh annual capacity production site in Germany.

When will Gotion build a new battery?

Construction is scheduled to kick off in 2024, with commissioning planned for 2026. According to Gotion, it will soon announce contracts with new European customers. The Chinese battery cell manufacturer and Volkswagen partner Gotion High-Tech has just signed a "pre-joint venture agreement" with Slovakian battery company InoBat in Berlin.

Is electrochemical energy storage the mainstay of energy storage transition?

Chairman of Gotion High-Tech Li Zhen said that the new energy era has arrived and electrochemical energy storage is the mainstay of energy storage transition.

Did Gotion High-Tech disclose the financial details of the GIB deal?

The duo did not disclose the financial details of the investment. InoBat calls the deal a "Gotion-InoBat-Batteries (GIB) transaction" and stresses that Gotion High-Tech has "committed significant capital and technology support to ensure and safeguard InoBat's success of the GIB framework."

How many GWh will Gotion produce in 2022?

On June 28, 2022, Gotion announced plans to build a 20 GWh annual capacity production site in Germany. By 2025, Gotion's global production capacity is planned to reach 300 GWh, including 100 GWh of overseas capacity, Gotion Chairman Li Zhen said at the time.

6 ???· The EUR1.28 billion facility, with an annual production capacity of 20GWh, will focus on producing high-performance batteries for electric vehicles and energy storage systems, meeting growing ...
