

Will Guam get 330 megawatts of solar power by 2028?

Workers could be seen at the site of the Mangilao Solar Project on Aug. 12,2021. The Guam Power Authority wants to award two major contracts for solar farms in Dededo and S&#229;nta Rita-Sumai,the first two in a series of projects which are anticipated to add a huge 330 megawatts of power to the grid by 2028.

How do I contact the Guam Power Authority?

For more information and agencies,call the CCU Board Secretary at (671) 648-3002or visit The Guam Power Authority has been serving Guam for 54 years. Contact us to let us know what updates and information we can provide to help you better understand the work we do; or ways we can better serve you.

Does Guam use fossil energy?

3 Guam has no fossil energy resourcesand meets nearly all of its energy needs--including the fuel for generating most of its electricity--with imported petroleum products. 4,5 However,Guam is increasing its use of renewable energy resources for electricity generation. 6,7

What is the Guam Waterworks Authority (CCU)?

Established by law in 2002,the CCU's purpose is to exercise powers vested in them by the laws establishing the Guam Power Authority ('GPA') and the Guam Waterworks Authority ('GWA') and serves as its board of directors. The CCU is comprised of five (5) commissioners elected at-large by the voters of Guam in a General Election.

Does core tech solar have a legal dispute with Guam Waterworks Authority?

Commissioners did raise some concerns about the award to Core Tech Solar,as affiliate company Core Tech International is currently locked in a multi-million-dollar legal battlewith the Guam Waterworks Authority. GPA needs approval from the CCU,before taking the contract awards to the rate-setting Public Utilities Commission for final approval.

Does Guam have wind power?

Guam has substantial wind power potentialbut also has unique wind turbine siting issues. The island is seismically active and is in the Pacific's Typhoon Alley,so wind turbines must be engineered to withstand both earthquakes and typhoon-force winds.
