Continuous rows of wind turbines operate year-round, delivering clean energy to the central and eastern regions of China. This area, Jiuquan, is one of China's richest in wind energy resources and has excellent development conditions. Riyue Heavy Industries (Gansu) Co., Ltd. is located in the Jiuquan Economic and Technological Development Zone.

Solar energy offers interesting prospects in Haiti, by offering energy self-sufficiency to the most isolated cities, in the absence of a power grid. The country's location in the tropics gives it very strong solar energy potential. It is believed solar energy will play a fundamental role in access to electricity over the next 10 to 15 years.
