Hanwha Power Systems maximizes customer value with technology, experience and world-class production facilities accumulated through the production of various gas turbine generator and compressor packaging. In addition, Hanwha ...

The sCO2 power generation system combines this characteristic of supercritical CO2 with Hanwha Power Systems" integrally geared turboma chinery technology, maintaining the sCO2 in a closed-loop ...

Hanwha Power Systems is developing ammonia gas turbines, a promising solution for clean propulsion. While Hanwha Ocean is exploring how to integrate these turbines into vessels, advancing the transition to carbon free shipping. Additionally, hydrogen fuel cells are a key part of Hanwha"s vision for fossil-free shipping. ...

- 100 % Oil-Free compressed air without any contamination: ISO 8573-1 Class 0 certification - High efficiency oriented components and low maintenance design will provide customers with lower life-cycle cost
- All-in-one package all the components mounted on the base frame - Using three-dimensional design system to eliminate potential design flaws in the design phase

E-Mail powersystems@hanwha . Transport - Within 1km from Pangyo I/C (5 minutes) - When coming by subway, get off at Pangyo station ... COPYRIGHT 1996-2018 Hanwha Power Systems CO., LTD.
