

Chevron CEO Mike Wirth came to Gastech Houston 2024 with a plea for a more balanced energy conversation--shortly before laying into President Joe Biden for vilifying natural gas and playing politics with LNG permits.. Wirth extolled the virtues of natural gas for its ability to reduce emissions. Citing U.S. Energy Information Administration data, McKinsey & Co. ...

The bad old days of minerals and royalties buying was like navigating a massive and ugly spaghetti junction of benches, basins and plays. Where to buy and when--timing the drill bit was crucial--could make or break oil and gas mineral return on investments (ROIs).

HARTL ENERGY GMBH ist ein österreichisches Unternehmen, welches sich der Entwicklung, Produktion und dem internationalen Vertrieb von erneuerbaren Energiekonzepten für die Bauwirtschaft verschrieben hat.

Hart Energy is the premier information resource for commodity prices, Brent Crude & WTI futures, breaking news, exclusive interviews, opinions, insights, and in-depth analysis on the global energy industry.

The northern Midland Basin is home to a mix of private and public producers, including SM Energy, HighPeak Energy, Surge Energy and Birch Operations. (Source: Rextag data) There are also several public E& Ps that have grown through Permian acquisitions in recent years that could become targets for acquisition themselves.

The Denver-based E& P has retained Eagle River Energy Advisors LLC to market a portion of its operated, oil-weighted legacy assets in Andrews and Martin counties, Texas. The opportunity, for wellbore-only interests, includes 79 vertical wellbores--18 in Andrews County and 61 in Martin County, according to Eagle River's marketing materials.

Jaxon Caines, technology reporter, Hart Energy: I'm Jaxon Caines with Hart energy. I'm here at Gastech 2024 in Houston, Texas. I'm here with Nathan Snoke, global account manager for hydrogen and new energies at Halliburton. And we're here to talk about hydrogen. So to start things off, Nathan, what are some of the biggest trends that you've ...

The Waha Hub natural gas spot price in the Permian Basin traded below \$0.50 per MMBtu on March 14, an executive for Enterprise Products Partners (EPD) said at an industry lunch later in the day.. At 9 a.m., Andrew Fletcher, KeyBank National Association senior vice president for commodity derivatives, wrote in an email that Waha 2024 bids were at negative ...
