OverviewWildlifeHistoryGeographyAdministration and economySee alsoFurther readingExternal linksThe islands are part of the Southern Indian Ocean Islands tundra ecoregion that includes several subantarctic islands. In this cold climate, plant life is mainly limited to grasses, lichens, and mosses. Low plant diversity reflects the islands' isolation, small size, severe climate, the short, cool growing season and, for Heard Island, substantial permanent ice cover. The main environmental deter...

The two small triangles are the McDonald Islands, mostly small rock islands and not nearly as impressive as Heard. I know that they probably are not as green as on the flag, but I simply didn't want to have grey on there. Lastly there's the southern cross from the Australian flag, following the lead of Christmas Island and the Cocos Islands.

McDonald Island is much smaller (2.5 km 2), about 100 000 years old and totally ice-free, and is predominantly composed of phonolitic rocks. 9, 10 During the campaign, signs of volcanic activity ...
